

# Offsite Backup Services

Offsite Backup Services from System Architects designed for small and midsize business to have enterprise-class online data protection with superior performance.

Perfect for Law Firms, Accounting Firms or any company that has compliance requirements that prevent data leaving Canada.

System Architects backup infrastructure is 100% owned and managed by System Architects a Canadian Federally incorporated company with its head office in Toronto.

## Cloud Backup Locations

151 Front Street, Toronto, Canada  
Highway 404 & Highway 7

## Pricing Model

Monthly with no Fixed-term contract

## 151 Front Street West Cloud

151 Front Street West is Canada's premier telecommunications hub and carrier hotel. Also known as the home of TORIX, 151 Front Street West has a long history in the industry and is one of eight carrier-neutral facilities in North America.

## Highway 404 & Highway 7

With over 12,000 square feet of available space our newest cloud location has more capacity to fulfill your growing data backup needs.

## Hybrid backup

Offsite backup provide a perfect complement to your local backup. The Hybrid solution solves a key problem of slow restores. Online backup, with its secure anytime anywhere access, allows your business to recover from a disaster, and your local backup allows you to restore all of your lost files in a snap.

## Unlimited Data Transfer

Unlimited data transfers allows you to send as much data as you need at no additional charge.

## Safe, Secure and Local

Your data is kept at System Architects' facilities located here in the Greater Toronto Area inside one of our two Cloud Backup locations. So you know that your data is secure and located here in Canada.

## Monitoring and Management

Your backups are monitored 24/7/365 so in the event of a failed backup you are notified. Need more reliability add System Architects IT Support services and have your backups tested and verified.

# Full Services Technology Solutions

System Architects is a leading Canadian Outsourced IT Services firm providing a wide range of enterprise level IT services that today's businesses need to succeed in a global market.

A Canadian federally incorporated company, System Architects, established in 1997, has multiple data and delivery centres designed to support a wide range of IT services.

Our team is located in Toronto, Ottawa, Montreal and Vancouver with available capacity to support international clients, we provide a complete range of resources capable of delivering on a wide range of IT projects.

### OUTSOURCED IT SERVICES

Provides your business with a fully functioning IT department without the need to maintain full time IT staff. With a wide range of support options you can select the level of support your business needs.

### SOFTWARE DEVELOPMENT

Teams that design, develop, test & provide ongoing level one and two support customized to your unique requirements, with a wide range of supported languages, database, technologies and hosting solutions.

### PRIVATE CLOUD HOSTING

Two data centres across the GTA provide the cloud services that host your business' IT systems with seamless integration into our other IT capabilities. Its a simple & cost effective hosting solution.

### DESKTOP AS A SERVICE

Desktop as a Service (DaaS) with 24/7 Helpdesk Support from System Architects provides your business with a secure, cost effective way to give your employees a PC desktop without the traditional headaches of constantly buying, upgrading and managing PCs and with 24/7 Helpdesk support for your staff.

### OFFSITE BACKUP

Our two data centres provide full offsite backup services for both PCs and Servers. Your data is safe, secure and kept in Canada.

### DISASTER RECOVERY

Combining our IT Consulting, Private Cloud and Enterprise Hardware capabilities we can design, deploy and support DR solutions that can fit your business goals and budget.

### ENTERPRISE HARDWARE

Never again pay retail prices for your business enterprise hardware. Our wide range of partnerships and purchasing power gives you a simple cost effective way to get the infrastructure your business needs.
