

# Private Cloud Hosting Services

Looking for the cost benefits and scalability of the Cloud but worried about putting your critical business data on to an unknown cloud?

System Architects' Private Cloud provides your business with reliable, secure and local cloud services designed specifically for small to midsize Canadian businesses.

You can move your business into the cloud without losing the ability to see and know exactly where your data is located.

System Architects cloud infrastructure is 100% owned by System Architects a Canadian Federally incorporated company with its head office in Toronto.

## Private Cloud Locations

151 Front Street, Toronto, Canada  
Highway 404 & Highway 7

# Full Services Technology Solutions

System Architects is a leading Canadian Outsourced IT Services firm providing a wide range of enterprise level IT services that today's businesses need to succeed in a global market.

A Canadian federally incorporated company, System Architects, established in 1997, has multiple data and delivery centres designed to support a wide range of IT services.

Our team is located in Toronto, Ottawa, Montreal and Vancouver with available capacity to support international clients, we provide a complete range of resources capable of delivering on a wide range of IT projects.

## OUTSOURCED IT SERVICES

Provides your business with a fully functioning IT department without the need to maintain full time IT staff. With a wide range of support options you can select the level of support your business needs.

## SOFTWARE DEVELOPMENT

Teams that design, develop, test & provide ongoing level one and two support customized to your unique requirements, with a wide range of supported languages, database, technologies and hosting solutions.

## PRIVATE CLOUD HOSTING

Two data centres across the GTA provide the cloud services that host your business' IT systems with seamless integration into our other IT capabilities. Its a simple & cost effective hosting solution.

## DESKTOP AS A SERVICE

Desktop as a Service (DaaS) with 24/7 Helpdesk Support from System Architects provides your business with a secure, cost effective way to give your employees a PC desktop without the traditional headaches of constantly buying, upgrading and managing PCs and with 24/7 Helpdesk support for your staff.

## OFFSITE BACKUP

Our two data centres provide full offsite backup services for both PCs and Servers. Your data is safe, secure and kept in Canada.

## DISASTER RECOVERY

Combining our IT Consulting, Private Cloud and Enterprise Hardware capabilities we can design, deploy and support DR solutions that can fit your business goals and budget.

## ENTERPRISE HARDWARE

Never again pay retail prices for your business enterprise hardware. Our wide range of partnerships and purchasing power gives you a simple cost effective way to get the infrastructure your business needs.
